REMARKS

The present Amendment is submitted in response to the Office Action dated November 13, 2007. In view of the foregoing amendments and the comments which follow, favorable reconsideration of the subject application is kindly requested.

In the Office Action, the Examiner has indicated the allowance of claims 8-14, which action is much appreciated. The Examiner has made claim and drawing objections as described and responded to below.

The Examiner objected to claims 8, 9 and 11 noting a few instances of unclear language. In response, Applicants have reviewed and revised all three claims to attend to the particular issues noted by the Examiner. It is believed that the claims are thereby clearly rendered into allowable condition as a result.

In regard to the drawings, the Examiner required submission of drawings per those appearing in the priority application; these have now been supplied to remedy this issue.

In view of the above, reconsideration and allowance of this application are now believed to be in order, and such actions are hereby solicited. If any points remain in issue which the Examiner feels may be best resolved through a personal or telephone interview, the Examiner is kindly requested to contact the undersigned at the telephone number listed below.
